

Minutes of SIAPWS EC Meeting 2018-2 (02.03.2018)

1. Update since last meeting

- Matarvattensektionen will have the annual meeting on 26. April in Mölndal. Valmet will participate and tell about Future boilers.
- ADV exp. Forum will meet on the 18.-19. April in Stenungssund, Perstop Chemical Factory.
- Karsten is involved in two projects on introducing oxygenated treatment in drum boilers.
- Black pellets, redesign of sampling stations for varying load operation.
- Use of ultrasound induced cavitation – to combat microbiology and cleaning purposes – may be useful in FGC-treatment.

2. Billing status

- 2017 account – Kaj/Karsten
- 88.000 DKK in fees in total. Kaj will ask for full information from IDA.
- We will move the invoicing for 2018 to May-June instead of in December.
- There should be full information on the invoice – info on SIAPWS, IDA company number, contact person.

3. SIAPWS Water Chemistry Network

3.1. Planning of “Base Course in Power Plant Chemistry” in 2018

- Lea will hold the corrosion course in the spring
- Karsten will hold the water chemistry course in the spring
- Rogers will unfortunately have to cancel his course on flue gas condensation
- Next decision will be made in Aug/Sept.

4. Next annual SIAPWS meeting

Söder Energi, 14. March 2018

- 16 has registered now – Monika will send out a reminder
- Lunch – Roger and Nicklas will arrange that, including morning bread, coffee, the.
- EC proposals – we would like to increase the number of participants in the EC – two from each country.

5. The Finnish Campaign

- The VGB committee will meet this month.

6. Miscellaneous

- Facebook groups – not much activity.

8. Next EC meeting

The date for the next meeting will be set after the SIAPWS annual meeting.

A tentative date could be 4/4-2018 at kl. 13-14.
